

Virtual Reality Interfaces for 3D model reconstruction and sharing

Take part in a study of **Virtual Reality!**

This is a request for volunteers to participate in an **Immersive User Interface** study in the Department of Computer Science, University College London.

During the experiment you will be asked to complete a task using one of the following:

- **a head-mounted virtual reality display**
- **two XR controllers**

The study will last approximately **20 minutes**.

Please note that you will not be able to participate in this study if you have previously suffered an epileptic episode, if you have any type of colour blindness or if you have consumed alcohol within the last 6 hours before the sessions. If you take part in the study we will advise you not to operate heavy machinery (including driving) for two hours after completing the study.

Please contact Andrei Bunea (Email: andrei.bunea.22@ucl.ac.uk) or Anthony Steed (Email: A.Steed@ucl.ac.uk or Tel: 02031087112).

This study has been approved by the UCL Computer Science Research Ethics Committee (Study ID UCL/CSREC/R/16) All data will be collected and stored in accordance with the UK Data Protection Act 2018 and GDPR.
